MONART: THE DISRUPTIVE ART COMMUNITY & MARKETPLACE

monart is disrupting and opening up the huge 67 billion \$ a year art market and the \$3 trillion of illiquid art assets with a combination of innovative art experience with 3D, AR, IA... and new business models based on the blockchain and on Fintech services.

For over 20 years, the contemporary art market has beaten all stock exchanges indices. monart proposes to let everyone benefit from this growth and bring liquidity to the art market.

monart is developing a global art ecosystem, creating a new market and art currency standard

THE DECENTRALIZED ART MARKETPLACE, OPEN TO EVERYONE

Instantly and securely buy, sell, trade artworks or part of artworks and even rent individual artworks or entire art collections on monart's unique marketplace. Based on Blockchain technology, the monart marketplace enables users to securely trade tokenized art assets in multiple currencies via a simple interface supported by all necessary accompanying services such as shipping, insurance and the like.

MONART'S INNOVATIVE SECURITY TOKEN* IS UNDERPINNED BY A MAJOR ART COLLECTION & MARKETPLACE REVENUE STREAMS

Half of the token sales proceeds are invested in a major art collection that in turn will generate revenues paid to token holders. Those revenues are enhanced by additional shared revenue generated by the marketplaces user transactions.

* Monart Token Offering is using security token infrastructure even though it is named a VFA - Virtual Financial Asset - Offering under Malta Law.

MONART'S INNOVATIVE ECOSYSTEM ATTRACTS THE BEST ARTISTS WORLDWIDE

monart organizes major and important artist and artwork promotions both on and off-line using many different mediums including the opening of monart art spaces in major cities around the world starting with Beijing, Paris and New York. Such spaces create a sense of fun, discovery, enjoyment and of course investment. A huge community to enjoy art.
